U.S. Citizen, Social Security: xxx-xx-xxxx

VACANCY IDENTIFICATION NUMBER: XXXX-XX

JOB TITLE AND GRADE: XXXX

LOGISTICS & QUALITY CONTROL SPECIALIST

Focused, results-driven Logistics and Quality Control professional with more than 10 years of experience and a reputation for consistently meeting the most challenging organizational goals and objectives with unequalled success. Proven and verifiable record of producing higher performance standards and enhancing productivity with very few personnel. Able to motivate team members and maximize productivity and morale without financial incentives. Well-demonstrated ability to develop and implement highly successful short- and long-term strategic plans, routinely completing projects on time and within budget. *Possesses active U.S. Secret Clearance.*

PROFESSIONAL EXPERIENCE

LOGISTICS & MANAGEMENT

Actively participated in the U.S. Navy upper-level management team that proved that the military could be managed like a well-tuned corporate machine by efficiently managing complex organizations, supervising hundreds of people through many line-management personnel, and responsibly maintaining \$380 million worth of equipment, supplies, and line items. Consistently demonstrated knowledge of the principles and concepts necessary to perform effective logistical analysis by routinely carrying out logistics functions such as Inventory Management, Supply Systems Analysis, and Standardization.

QUALITY CONTROL

Expert in H-60 airframe and flight control systems with a focus on Quality Assurance in production. Strong ability to identify problems and generate workable, cost-effective solutions. Performed detailed, comprehensive audits of squadron work centers and programs and provided easily understood, resolution-oriented reports designed to enhance efficiency of corrective actions. Ensured safety of personnel and maximized use of equipment at lowest cost through careful monitoring and by maintaining strict compliance with all Navy policies and procedures.

TRAINING & DEVELOPMENT

Proven track record of exceptional leadership with superior teaching and motivational skills. Catapulted squadron maintenance work center team with the lowest performance level of 10 squadrons to a #1 performance ranking in less than 12 months. Established and implemented more user-friendly training techniques that increased junior personnel understanding of quality control procedures and enhanced performance.

WORK HISTORY

UNITED STATES NAVY

1234 Main Street

Any Town, Minnesota

Supervisor: Jack Doe – (877) 875-7706

1999 to Present

60 hours/week

Ending Salary: \$60,000/YR

PETTY OFFICER FIRST CLASS

Served for 10 years, including active participation in the swift and forceful turnaround of the armed forces that led to the U.S. Victory in Operation Enduring Freedom and Operation Iraqi Freedom. Coordinated numerous logistics operations, oversaw aviation/aerospace quality control, and developed and led comprehensive training programs.

WORK HISTORY (continued)

UNITED STATES NAVY, Petty Officer First Class

Outstanding Achievements include:

- Innovated and initiated tracking program that ensured smooth deployment of 96 personnel, 4 aircraft, and 2,500 line items and equipment to Iraq in support of Special Operations, and oversaw successful return of all with 100% accountability.
- Utilized Group Think, Team Dynamics, and a Creative Working Environment to motivate Navy squadron airframe production work center personnel and enhance productivity, resulting in a 5% reduction in weekly workload each week and a total 45% reduction in 12 months.
- Decreased turnaround time for H-60 aircraft Phase and Special inspections by 50%.
- Vigilantly monitored 42 Navy aviation programs to ensure compliance with guidelines and regulations set forth by the FAA, NTSB, and COMNAVAIRFOR.
- Received recognition by superiors for design and execution of comprehensive Helicopter Wing squadron training program that resulted in exceptional subordinate performance in all evaluated competencies.
- Developed warfare program comprising 52 qualifications skills, 10 professional rating subjects, and OJT training via leadership curriculum.
